## Turning your Ideas into Actual Objects: 3D Printing and Scanning

Jennifer Horton  
Morris Library, SIUC

3D printing? Really, three dimensional printing?

What can a 3D printer make?

She'll bring a 3D printer to the Science Café, turn it on and produce an object while we watch.

Place: The Science Center, University Mall, Carbondale

Time: 7:00 P.M.

Admission: free, everyone welcome. Come early, have a complimentary cup of Gloria Jean's coffee.

She'll be on "Morning Conversations" with Jennifer Fuller, WSIU FM, 8:30 AM Tuesday, October 21, 2014.
